**About:** A highly motivated and passionate Computer Engineering student specializing in Artificial Intelligence. I thrive on challenges and am committed to going the extra mile - ethically - to accomplish tasks that ignite my passion. I actively volunteer for sustainable development programs and seek meaningful contributions in this field.

My deep interest in coding and programming keeps me engaged with emerging technologies through workshops and hands-on learning. I firmly believe that learning is a lifelong journey, and I continuously strive to expand my knowledge and skills.
